Shamanic Reiki: Expanded Ways Of Working

Synopsis

Shamanic Reiki introduces techniques that healers and Reiki practitioners can draw on to tap ancient healing wisdom. Shamanism and Reiki are, by themselves, powerful ways to heal. Together, their power multiplies, and healing methods become available that aren't accessible if used separately. The purpose of Shamanic Reiki is to introduce you to concepts in both and provide you with detailed proven methods to enhance your own healing practices.

Customer Reviews

I am only about a quarter of the way through this book and I absolutely love it. The style that it is written flows very well. They teach using real examples of clinical situations which makes the use of this style of reiki so much easier to learn and effective to use! I am a Reiki master, and have been using similar techniques for a long long time, but I can see this helping me to take my Reiki practice to the next level. The empathy shown through the writing is delightful. I highly recommend this book!

Read this book if you would like to integrate shamanism into your Reiki practice. The authors make

it effortless. Each chapter presents easy to follow approaches, which will involve you and your clients in the process of making your Reiki sessions more powerful. The authors empower us to step confidently into our personal exploration of combining shamanism with Reiki by communicating to us their profound understanding of the nature of energy. We will understand that our success depends on our intention, our relationship to spirit, and our trust in the healing process. As we experiment with the book's healing methods and exercises, we will remember the authors' admonishment that healing tools are channels of healing energy, not the energy itself. After we close the covers of the book, we will be ready to open our basket of tools and use them to experience the rewards of incorporating these two important healing modalities.

As a Reiki Master, this book helped me to understand the "third-eye visions" that I started to see during Reiki sessions. What an affirmation it was! This book has assisted me in learning how to trust the messages of these beings, and how to share them with clients. I highly recommend this book to anyone utilizing energy healing techniques.

I really enjoyed reading this book. Since I was a child working with Nature and energy for healing has always been something I have done. I really liked how Lyn has made direct links between reiki and shamanic practices - I found it strangely reassuring to see something I have done instinctively, being written about! I recommend this book to others who may be trying to find a pathway through the ways of healing and energy they work with. Thank you Lyn!

I have read numerous books on Reiki, as well as books on Shamanism. Combining the two makes so much sense to me, and resonates deeply. It's as if it was written just for me...!

A clear, step by step sharing of how to accomplish various kinds of Reiki healing sessions. Wonderful support for practitioners. I highly recommend this book.

Anyone interested in Reiki should give this book a read. Wonderfully and simply written so that a beginner can understand it, yet lending itself extremely well to use by the seasoned practitioner as well. Reiki and Shamanism, Reiki and Huna - Reiki works and melds well with other disciplines. As one of the other reviewers stated, I was also surprised at how many points and curves of the Reiki practice are parallel and overlapping with Shamanism. Small wonder, however, when you realize that our healing modalities source at the same place. I thoroughly enjoyed the way Llyn Roberts and

Robert Levy laid out and presented the information in this book, as well as their writing styles. I'll be re-reading this one several times.

I found this book to be an awesome guide to another side of Reiki that is not traditionally used. I follow many Shamanic practices and felt this book seamlessly combined the two things I truly love in life as a tool to help others - Reiki and Shamanism. I originally bought this book on my kindle, but felt it was such a great book to have for my healing basket that I went and bought a hard copy as well to refer to.
