Customer Reviews

It has the regular sheet music plus tabs. I bought this for my husband and eventually my daughter as she learns to play. it also has all of the lyrics. They are already asking me to find more.

Very cool! I was happy to see that this tab book was available when I looked for it. Sometimes it's hard to find the right tab for songs that i wanna learn. This book has not disappointed. I am very pleased with it. The first song I have been working with is Alive and Awake. The solo is so killer. To me it is a perfect solo line. The tab is right on with it so that's always awesome when you don't have to try and figure pieces out. Skillet is such a great band. They cover so many different styles in this album so I am looking forward to learning all the songs. Look forward jamming with their cd and now i can. :)

First off I am the son of A. Cornell I am new to electric guitar and I love skillet so I bought this book and I love it so far. I can play monster really well and my amp, the Fender frontman 10w amp allows

me to plug in my mp3 player and play with the band so IT'S REALLY AWESOME

Excellent quality music to begin practicing!

My sister loves this!

This book is very useful! Love it very much. I think it is easy for a new guitar player to practice .
