Creative Haven Creative Cats Coloring Book (Adult Coloring)

Customer Reviews

One sided, fairly thick paper adult coloring book. Very detailed drawings! The cat faces pretty much look identical in every drawing, same kind of blank expression, but the intricate backgrounds and strong themes of each sheet make up for that. I particularly like the King and Queen playing card themed drawings. I would suggest putting a blank sheet of paper under the drawing you're working on just for precaution. I have used felt tip markers and they bleed through to the back but since I use a divider, it doesn't bleed into other pages. I think you could probably use watercolor pencils on this as well without any worry of tearing. Overall, I really love this book and would recommend prismacolor's colored pencils to color them.

You will want to color every single stunning illustration in this book. I ordered a second one for the grandchildren, this one I am keeping for myself. The pictures inside are even better than the cover. This artist Marjorie Sarnat breathes new life into the art of Coloring, through the intricate interweaving of exotic cats with mesmerizing eyes that entrance you, and captivating, unparalleled combinations of patterns embellishing the backgrounds, scenery, borders, and even adorning the cats. Her art is brilliant in conception, skillfully and meticulously executed creating phenomenal artwork that will inspire you and take your creativity to new levels. This book is a perfect gift for school aged children and adults, colorists of all ages. 1. 31 illustrations printed one per page (the back of each page is blank) on bright white, heavy weight paper, perforated paper for easy removal of pages for framing or painting. 2. The paper is a joy to color on, Crayons, Colored pencils, Watercolor Pencils, Markers and Gel pens lay down smoothly and brightly. 3. Test you're Gel Pens and Markers, if they leach through the paper, place a scrap sheet of paper under the page you are coloring on and leave it until the page is dry. OR remove the page from the book. 4. Author Marjorie Sarnat is co-founder and Director of Content Development of Jr Imagination, a publisher dedicated to growing the creative potential in children. 5. UPDATE: Marjorie now has a third and wonderful coloring book that has just been published and is available on it is "Fanciful Fashions Coloring Book" the artwork is amazing, a must have book (it is not a Creative Haven coloring book) her second book which is (Creative Haven Owls) has been released and is a top seller. 6. This is a wonderful book for experimenting with color, texture, and techniques. 7. Paisleys, Flowers, Music notes, Butterflies, Hearts, Geometric shapes, Steam punk and more patterns are used in these Illustrations. 8. I have added a picture that I colored with Fiskars Gel Pens, 2 illustrations that are included on the inside covers of the book to inspire you, and other images, I hope these will be helpful to you in deciding if this book is just right for you.

Really cute and detailed. A lot of the cats look identical with different backgrounds. I love it!

Received my books today. They are going to be such fun. I love that they are perforated and can be easily removed from the book. I am left handed and anyone who knows how difficult it is to deal with the humps and rings in books and spiral notebooks.

One of the best books I've seen. The detail is great. Pages are durable and pretty thick. I just love the detail of the drawings. Very clean and organized. I like how you can easily tear pages out.

Reviews are very important to me when choosing which coloring books to purchase. So I have decided to begin writing my own. The moment I opened this book, I was in love. The images are fun and whimsical - screaming to be filled with bright, vibrant colors. Yes, the face of the cat is identical throughout - some may be disappointed by this. I see the cat as a secondary element of the drawing. Each page is 'themed', (eg: travel, flowers, cuckoo clocks, writer, fairy, etc), The theme, to me, is the primary element of the image. As for the book itself, paper is not a concern to me, since I copy the pages so I can color them more than once using different implements. Gel pens, color pencils and fine tip markers are the most common implements I use. The paper is thicker than your average copy paper, but I would never color in the book without putting a protective sheet in between pages. Marker will bleed through - Sharpie would bleed the most, Crayola the least. The gel pens don't bleed through, but the color shows through the back (not sure if this will make sense to you - the reader). Most books you would not want the binding to break easily, but with coloring books, most people like the book to lay flat, whether for coloring or copying. This binding 'breaks' open very well. Allowing me to copy pages without removing them from the book. The pages are perforated!!! Coloring books loose at least 1/2 a star, in my opinion, for not having perforated pages. These are also one-sided pages, also important enough to loose 1/2 a star over. Overall, the images in this book are fun, with crisp lines (even the fine lines) and minimal white space. Perhaps not for the youngest of coloring enthusiasts, unless they are a little more advanced in their coloring skills. (I did use these types of books to help hone my daughter's fine motor skills). I am looking forward to bringing out the brightest (and least used) of my pens and pencils for these images. Glitters, metallics and neons - oh my!!!

This is a great adult coloring book for the advanced artist! I bought this as a gift for my Mother who

has cancer and is in recovery. Amazing cat lover coloring book! Perforated pages and its printed on one side which makes it great to display!

Thicker paper, one image per page and perforated pages so is easy to removal and display it. The only thing is my book first page came ripped and also is the same cat in all pages with different patterns, so is boring to do the same cat over and over.
