Some basic wear around the edges, something to be expected of a years-old shelved-book. No ripped pages, insides in extremely good condition. Extremely satisfied!!

Has so much info in it and I'm so excited to use it when I play the game. It is a little beat up on the edged and the cover was ripped (gladly not too bad though). Well worth the money!!!

Thought it was another one, but still a good book

A little beat up but still good

Item arrived on time and came as described.

Just like I remember as a kid! Though... The pages do tend to tear easily... Which is why I lost it as a kid! I couldn't believe that it was here, and for so cheap too! I'd had faint memories of having had

this book in maybe 3rd or 4th grade. In 6th grade, while cleaning some stuff, I found a few pages of the whole thing and was overwhelmed with joy! Now I have the whole thing! Haha!

I recently got back into my older games, and this guide is absolutely great. When I was kid, I remember spending hours combing the maps for pokes and items, and now I have the guide to help me. It makes it easier on me now as I am older and do not have the time to explore and would rather get on with the storyline. Great hints and tips as well.

Had this guide as a kid and a long time ago when i was moving my cousins were moving into our old house. I honestly believe that they stole this guide from me...now that i got that out of the way its a great guide with alot of helpful tips whether your playing the original silver on gameboy or if you got soul silver on ds :)
