Customer Reviews

Carolyn Keene is the author of the ever-popular Nancy Drew books.

Bought for my daughter's friend for her bday. My daughter is obsessed with this series (we have the first 12 books so far and we're adding more as we go). Buying books 1-3 separately would cost significantly more than this book alone - so I was happy to see them all in one very thick volume. I know these books aren't super well reviewed by critics, but my daughter (age 10) couldn't be happier with them. She loves every single one.

Great especially for young girls. No sex, violence but a lot of intrigue. It's fun to try to figure out what is the outcome of the investigation.

Daughter loved it!

My sensitive almost 9 year old was excited to read these - she had read ALL of the other Nancy Drew books for the younger kids and was excited to have the next new thing. After beginning the 1st book she decided to read the back of it to see what the story was going to be about and was completely creeped out by the 'bloody body floating in the swimming pool.' Unfortunately she has decided that she is not reading this series. I have no idea if there are truly scary things discussed in these books - and will now have to read it if I ever think she would read it - but I don't think she will plan to read it now. We are not fans of the really scary novels - if your kids are, then this might be a good fit. But if your kid is like mine and loves a good mystery - but not scary, creepy books - then this one just might be a pass.

Not a book for younger readers as the content is more high school oriented: Nancy has a serious boyfriend, one of case involves a girl accused of doping her horse, etc. I tried reading this I with my 8 yo, but stopped due to content that just seemed to mature for her right now. She loves mysteries and I was trying to find some good choices.
