Shading Needlepoint (Predictable Results) (Volume 3)

Synopsis

Shading can give your needlepoint dimension and depth, without being as difficult as you thought it might be. Part of the Predictable Results series of book from Art Needlepoint and needlepoint expert Janet M. Perry, you'll get the beautiful results from your stitching you've always wanted. Learn two forms of shading that let you use any thread plus advanced shading techniques to use specialized threads such as overdyes and metallics. You'll love how it enriches your needlework. The ground-breaking books in this series give you the knowledge you need to get the results you want in your needlepoint.

Best Sellers Rank: #748,451 in Books (See Top 100 in Books) #87 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Needlecrafts & Textile Crafts > Needlepoint

Customer Reviews

Janet M. Perry is the Internet's expert on needlepoint & counted thread. Her books, stitch guides, ebooks, and on-line classes explore exciting new uses for this new old craft. She puts into practice her motto to make needlepoint fast, fun and affordable. Janet is constantly stretching the bounds of needlepoint and then applying these ideas and techniques to projects which are for beginning and intermediate level stitchers. She has also written a beginning needlepoint class, taken via email, which has been given to over 2000 people. You can view her products and sites through Napa Needlepoint (<http://www.napaneedlepoint.com>) Change, improvement, creativity and beauty are at the cornerstone of the Art Needlepoint company, <http://www.artneedlepoint.com>. The company has a simple premise: art speaks to everyone. Needlepoint as an art form has unlimited beauty and opportunity for creativity. Their collaboration on books focusing on needlepoint techniques is designed to help you, as a stitcher, unlock your creativity through needlepoint.

This is a very pricy book for the amount of information contained. I can't say that the explanations or pictures were very enlightening either. I wouldn't buy another book in this series. That said, I did learn a few things that are useful. It is not a good value in comparison to some of the other books on needlepoint that give you much more information, a multitude of stitches, and lots of hints on technique. This "book" is more on the order of a pamphlet. It only has 26 pages, and is in large typeface and lots of white space. At least the layout makes it easy to read.

This book is 26 pages long and it doesn't present information you cannot find in other good needlepoint books, very disappointing.

Great book!!!

This is a must for everyone to read

very nice techniques

Very nice
