# Explore Roadside Nature: In Bryce Canyon National Park And Zion National Park

## Synopsis

Increase the fun of visiting Bryce Canyon and Zion. Discover the stories behind these world-famous, red-rock national parks. Both parks offer scenic drives. Along the way, enjoy these 40 concise, thoughtful descriptions and explanations of plants, animals, geology and ecology. Each article covers a specific spot along park roads. This family-friendly roadside guide provides in-depth and easy to read backgrounds of natural history, answering questions like: At Bryce Canyon's Visitor Center, why do ponderosa pine trees need wildfires? At Paria View Overlook, why did hoodoos form at this spot? At Zion's Big Bend Shuttle Stop, are California condors returning to the park? At Checkerboard Mesa, what created this checkerboard pattern? How to use these articles: While preparing for a park visit. While traveling the roads of Zion and Bryce Canyon. After a visit, to answer questions that came up following a visit. Articles are searchable by road location and subject matter. Photos of the subject and the location enhance each description.

## Customer Reviews

If you are going to Zion and Bryce Canyon National Parks, and you should, take this book with you. You can get a lot of information about what to see from the National Park Service and local tour guides, but this book offers an examination of what you are. This book is especially useful for the traveler with children because it has such great descriptions and explanations of the natural history of these two beautiful places. I awarded four stars instead of five because of the book's brevity.

Easy read to find what you are interested about. Some little known facts on many different subjects. Very easy read.
