Michelin Road Map No. 563 Toscana - Umbria - Lazio - Marche - Abruzzo (Italy)

Synopsis

Recognized for more than a century for clarity, accuracy and detail even the military has relied on Michelin maps Michelin offers over 200 selections for cities, regions and countries in North America, Europe, Africa and Asia. In-house cartographers, or mapmakers, produce each map and atlas and leave no stone unturned. Everything from major roads to the tiniest routes is depicted on Michelin's maps to allow travelers to go off the beaten path with confidence. What makes Michelin maps and atlases stand out? Michelin maps are frequently updated and specifically designed with travelers in mind. Michelin's cartography, user-friendly format and cross-referencing abilities with its renowned guidebook collections are paramount. The clear, clean and uncluttered style of Michelin maps is compounded with extreme attention to detail covering scenic roads, footpaths, panoramic views, emergency telephones, road widths and more. It's this kind of detail that can, for example, help North American tourists avoid surprises while traveling down narrow roads that are often hundreds of years old. Buildings, monuments, park trails and government offices are highlighted, too. When it comes to ease of use, Michelin has really done its homework. Michelin maps and the patented Michelin fold make it a snap to refold, even with one hand on the wheel. All Michelin atlases are available in spiral format, too. That's the number one binding preference according to independent consumer research. Michelin's unique cross-referencing system also makes mapping out travelers trips a cinch. Maps and guides throughout the Michelin collection work together with universal symbols directing to more information. Michelin map outlining the region.

Book Information

Map

Publisher: French & European Pubns (October 19, 2016)

Language: English

ISBN-10: 0685111911

ISBN-13: 978-0685111918

Package Dimensions: 9.8 x 4.5 x 0.3 inches

Shipping Weight: 0.3 ounces (View shipping rates and policies)

Average Customer Review: 4.2 out of 5 stars 7 customer reviews

Customer Reviews

The map was not that useful as a driving map since it only covered the major routes.

The map was fine...the paper tore after very little use. Very poor quality paper!!! I'll look elsewhere for another product!

though we had a GPS....this map was super handy to have at all times while driving through Umbria

If your are driving to small towns and villages this map is perfect. much more detailed than the all Italy Atlas's.

EXCELLENT

The major roads were there, but the provincial roads did not meet up with reality. So, we got lost a lot. I am not sure if it was due to poor signage in Italy or the map was inaccurate.

Great map. Very detailed, easy to read, easy to fold, good coating so did not get damaged by rain drops
