Customer Reviews

If your kids love trains this book is a must in your library! I grew up with this book, and it was always one of my favorites. My children already love trains, so this is obviously a popular one! Not many words, mostly pictures, but informative on different types of trains and train cars at an elementary level.

If you have a young child who loves trains, this is a great informational text!

Nice pictures but not for beginner readers.

My 2 year old loves trains. He LOVES trains. Did I say he loves trains? This book is great with colorful pictures and a lot of information to read about trains. He likes it now for the pictures, will like it later for the information.

Perfect for a young train fan

This is a fantastic little paperback about trains. The cover is nice plastic coated paper, so it wouldn't easily tear. The pages are thick paper, good for tiny fingers. My 4 year old nephew will love it!

My grandson loves trains so this book was perfect for him. He loves it!

A huge hit!
