Couldn't seem to find activity books like this at local stores. Love this book and all the words it teaches. The flash cards are a good touch for practicing. Only thing I could complain about is the marker it comes with... not easy to wash off hands so just replaced it with a crayola washable

marker ... not as dark but it works.

I love this book. Using it for my 4 year old toddler. He is actually doing a good job following the book and writing the letters without the trace marks as well. I also like that we can erase every single time to start over. Mess free!! I would recommend. Good learning book.

My daughter is just turning 5 and this is perfect for her. The book is big so kids can really read and write well. She LOVES tracing and then copying words. Highly recommended.

Perfect for helping my daughter learn her sight words. She was having trouble so I needed something that would help her yet let her have fun and feel like she was doing it on her own. This worked great for us.

This had been a wonderful learning tool for my almost kindergartener. Wipes off so easy I'll be able to keep it for my daughter.

i like the concept but hate how the markers wipe off all over my kid's hands. they are also not very easy to wash off their hands, even with excessive scrubbing with soap.

Great product but the pen that comes with it has a fine tip a little hard for my kindergartner to stay on the lines when tracing.

Love all these books. Great next step for my kid to get ready for Kindergarten.
