The Role Of Anesthesiology In Global Health: A Comprehensive Guide

Synopsis

“This brilliantly assembled expert compendium provides a much-needed guide for the practical application of anesthesiology in medical practice in the most bereft underdeveloped and violence-afflicted regions of the globe.”
—Seymour Topping, Professor Emeritus of International Journalism, Columbia University

This is a comprehensive guide to the role of anesthesiologists in medical missions. In their capacity as perioperative physicians, anesthesiologists improve the safety and efficacy of surgical interventions for underserved patients in low- and middle-income countries around the world. Contributions from international experts in global health provide essential historical context, practical medical and surgical considerations for planning missions, and scenarios of “on the ground” implementation of care. The final section considers anesthesiology education in the context of global health. This is an encompassing and eye-opening resource for trainees and physicians considering participating in a medical mission and students and faculty of global health.

Book Information

Paperback: 432 pages

Publisher: Springer; 2015 edition (December 5, 2014)

Language: English

ISBN-10: 331909422X

ISBN-13: 978-3319094229

Product Dimensions: 7 x 1.1 x 10 inches

Shipping Weight: 1.8 pounds (View shipping rates and policies)

Customer Reviews

“The Role of Anesthesiology in Global Health: A Comprehensive Guide, reviews international health literature pertinent to anesthesiologists and serves as a guide for the anesthesiologist considering or already involved in international work. | This book is perfectly suited to anesthesiologists interested in global health, yet it offers a wealth of information for all anesthesia providers. Furthermore, this textbook provides a solid reference for other

physicians, particularly surgeons interested in work in international health. (Gregory Klar, Canadian Journal of Anesthesia/Journal canadien d'anesthésie, Vol. 62, August, 2015)
