# Global Case Studies In Maternal And Child Health

## Synopsis

Maternal and Child Health (MCH) continues to be one of the most important fields of study for improving the health of populations across the globe. Two the 10 Millennium Development Goals strive specifically to improve maternal and child health, and several others, such as gender equality and HIV/AIDS, are critical aspects of Maternal and Child Health. Written for students in public health, medical, and allied health professions, Global Case Studies in Maternal and Child Health brings to life theoretical and conceptual ideas discussed in primary texts, through the analysis of lived stories of maternal and child health programs around the world. Using structured case studies of community-based programs in maternal and child health from around the world, students will be presented with real-life ethical, practical and theoretical challenges that will develop critical and analytical thinking skills and also provide them with practice models that they can use in their future or present work.

## Book Information

Paperback: 342 pages

Publisher: Jones & Bartlett Learning; 1 edition (December 18, 2012)

Language: English

ISBN-10: 0763781533

ISBN-13: 978-0763781538

Product Dimensions: 6 x 0.8 x 8.9 inches

Shipping Weight: 1 pounds (View shipping rates and policies)
