Synopsis

This audiobook is designed to help non-Spanish-speaking medical personnel communicate with Hispanics who have little or no English but need medical help. The audiobook presents English and Spanish words and phrases categorized according to different medically related subjects. Body parts, names of diseases, types of injury, and surgical procedures are just a few of the subjects in which English phrases are matched with their Spanish equivalents. Here is an ideal aid for doctors, nurses, paramedics, hospital and clinic receptionists and administrators, and others who speak no Spanish but frequently deal with Spanish-speaking patients.

Customer Reviews

This cd consists of words and phrases read in english immediately followed by the same phrase in spanish. There is almost no gap between one phrase and the next - certainly not enough to repeat the phrase or to think about what you are hearing. If you are using it with the book as a guide to pronunciation then that is what you have - no more no less. But as a stand alone teaching aid this is totally worthless.

There are no pauses in the audio disk to practice saying the spanish words. It just blows through reading the packet.... Not very effective.

Good for listening to in the car on the way to work. The pace was a little too fast though.

good vocabulary review, would be nice if there was time to repeat words after they are said. CD goes very fast

Horrible product to purchase, I was looking for phrases to use in the OR. Not on this one.

The audio goes a little to fast to follow but the book is very easy to follow into each chapter and great knowledge for a healthcare practitioner or anyone that works in a healthcare office.

This is a great CD if you already know some Spanish. I don’t know much Spanish, but I listen to it during my drive to and from work & have learned a variety of words and sentences. It’s not a "Hello, my name is" type of CD and I enjoy that.It’s fast paced if you don’t know Spanish. But I still enjoy it.

Good phrases but you need to have a good working knowledge of the language. Not the best for someone that doesn’t speak Spanish already.
