Grade Level: Preschool - Kindergarten

Customer Reviews

Mr. Small is a high-flying pilot in this adventure! Pilot Small prepares for his flight, and then enjoys the bird's-eye view from above. As fresh today as when it was first published, this fun and informative look at flying is perfect for airplane trips. --This text refers to an out of print or unavailable edition of this title.

LOIS LENSKI was the author and illustrator of more than ninety books for children during her lifetime. A Newbery Medalist and a Children's Book Award recipient, she is best remembered for her illustrations in Maud Hart Lovelace's Betsy-Tacy books and for her Mr. Small series.

Lois Lenski had a wonderful way of drawing the essentials to tell a story. This is a charming board book for toddlers. My grandson, who adores cars, trains, and anything that can go "vrrrrm" loves it.

When he is older, I hope he will enjoy "Prairie School" and the sensitively written true story of Molly Jamison, "Indian Captive".

This book is precious. My 2 year old loves to read it and see the pictures of the pilot. It's realistic, but nothing too much at all. The pictures are great and there are details that my son can pick out like the pilot's house and the hangar at the airport. If your kid likes airplanes, you wont want to miss out on this book!

Adorable book! My 2.5 year old is obsessed with planes and this book holds his attention and has taught him new airplane jargon! Highly recommend it for miniature aspiring pilots! It is different from other books, but I find it a refreshing book. Doesn't rhyme. Doesn't get overly in depth into storyline. Just right for young readers.

My son loves airplanes. This little book is precious. It tells the story of Pilot Small flying his airplane. My son is obsessed with airplanes so this was the perfect book.

Have to buy these for the grandchildren. Cowboy Small and not Pilot Small. Simple, aesthetic, dreamy and real - all at the same time. Perfect. And that's all about Pilot Small.

This board book version is different from the hard cover one. It is abridged and pictures are cropped. It is much easier to read to younger kids but definitely lacks the fun engaging problem-based plot of the full version.

Love the books by this author...I read them as a child, my children did and now my grandchildren....they are timeless.

Gave to baby destined to be a traveller. Mom and dad loved it!
