Diving: The World's Best Sites

Synopsis

For divers, photographers, and anyone fascinated by the hidden wonders of the seas, this magnificently illustrated book traverses the globe, focusing on 75 worldclass dive sites. Whether you want to witness the pearly nautilus's nocturnal migrations in the waters of Micronesia, wind through the eerie Turtle Cavern in Malaysia, or undertake the ticklish planning of a great white shark expedition in Dangerous Reef off southern Australia, this beautiful, indispensable guide offers all the details, directions, and tips for the ideal diving experience. Over 300 superb color photographs reveal the stunning beauty of these sites both above and below water, from the forests of giant kelp off Catalina Island to the endless tropical vistas from a Philippine beach. Practical information for each dive site includes tips on getting there, best time to go, quality of marine life, and statistics on climate, visibility, water temperature, and depth. These 75 locations range from remote unspoiled offshore reefs accessible from live-aboard cruisers to well-frequented sites where the diving is based at popular resorts. For divers motivated by marine wildlife, shipwrecks, simple recreation, or the exhilaration of danger, here are destinations all over the world. For armchair explorers, this is a diver's-eye view of the most exciting underwater sites around the globe.

Customer Reviews

The book has lovely pictures but arrived with out a cover. I was going to give this expensive book as a gift and now feel I cannot with out its cover. Very disappointed

Book is excellent.... pictures are great and gives you detailed information on each dive site. Highly recommend for anyone that enjoys diving

Beautiful book, perfect for a nice "coffee table" book you can leave out. Georgous pictures.

This is a good book for divers. It lists all the pertinent info about each site (i.e. water temp, sites to see, best time to visit, etc). I would definitely recommend buying this book. The pictures are awesome!

Diving: The World's Best SitesI gave this to my husband for a Christmas gift. He loved it. I don't dive but he loves it. He just got certified last year and this book gives him a lot of ideas on where to go for good diving. This book is only useful to someone who dives. Not for a vacation guide.

I know nothing about diving, but I know a diver. For her birthday, I gave her this book, not as a substitute for experience, but as a stimulus for trip ideas. She loved it, and I can tell, not because she told me, but because when I go to her house, I see the wear on a book that's clearly being enjoyed over and over again.

Beautifully photographs of the World's Best Sites; it was a wonderful gift for a friend who loves to dive with his family and is always looking for new sites.

A really good book with great pictures. A source of inspiration if you're planning a diving trip. Obviously written by someone who really enjoys diving and knows what he's talking about. A lot of practical advice too. A must for divers!
