Abandoned Wrecks

Synopsis

From ships left high and dry after the retraction of the Aral Sea to Titanic at the bottom of the Atlantic, from a rusting railway graveyard in Bolivia to abandoned World War II cars in a Swedish forest, from aircraft frozen in time in Antarctica to streetcars sidelined in Brooklyn, New York, *Abandoned Wrecks* explores over 100 fascinating sites from all around the world. Aside from the peculiar beauty of rusting hulks on forgotten battlefields, anemone-covered battleships on the seabed and cars being consumed by forests, the images and text introduce us to unusual stories: how a car standing on its nose in the Nevada desert has inspired an artist into making a design feature from junked cars, a Canadian schooner that sank in 1885 and rests preserved to this day in a harbor in Lake Huron, and a space shuttle left gathering dust in a hangar. With 170 outstanding color photographs of cars, trains, ships, submarines, tanks, aircraft and even a space shuttle, *Abandoned Wrecks* is a brilliant pictorial work showcasing these battered time capsules and their stories of wars, natural disasters, changing fortunes, tastes and fashions.
