Our Company History In 1928, at the age of twenty-two, Peter Beilenson began printing books on a small press in the basement of his parents' home in Larchmont, New York. Peter -- and later, his wife, Edna -- sought to create fine books that sold at prices even a pauper could afford. Today, still family owned and operated, Peter Pauper Press continues to honor our founders' legacy -- and our customers' expectations -- of beauty, quality, and value. Of the five memory books I purchased this holiday season, Memories for My Grandchild is my favorite. It has a hardcover with spiral binding. It measures about 8 inches by 10 inches. Has a really explanatory table of contents. The book begins with a family tree and continues on throughout the lifetime. The questions are thought-provoking and there are appropriate amounts of lines on which to answer. There are little birds and twigs on some pages giving each a playful, kind feeling. Some questions throughout the book are: What was your favorite home-cooked food? How did your parents discipline you if you did something wrong? As a child/teenager/adult, what were your

favorite books, magazines, movies, stars, etc? Any special holiday or vacation recollections? Marriage questions including info about the bridal party, groomsmen, first home, etc. Section on religion. A section for the present: age now? who are your best friends? Describe any collections you have. Your theme song. Fave things now: actors, writers, web sites, etc. Current way to communicate (phone, email etc). Ends with a section on Grandparenthood and describing the births of grandchildren, pet names for them, similarities, etc. The end of each section includes page or two to post photos, memorabilia, etc. There is a pocket at the end of the book where you can store photos, old letters etc. It's not large enough to hold more than a few pictures and maybe a letter or two. The book has a stretchy band to pull over the front cover which holds it closed. The other memory books I bought were: Grandma, Tell me your memories, A Father's Legacy, Share your stories Grandpa, and A Grandparent's Legacy. I highly recommend Memories for My Grandchild, a Keepsake to Remember. It's a fitting, journal-sized book, has a variety of questions and provides ample room for sharing memories and posting photos.

I knew I wanted to purchase two journal/keepsake type books for each of my grandmothers. I looked at a couple in the store that I didn't like much because they had room for pictures on almost every page and not as much room for questions and answers - which is what I really wanted. I also read tons of reviews for many of the other books (many of them mentioned in other review comments). I finally decided to order a copy of this one, even though I wasn't 100% if it would fit what I wanted it. After I received it, I immediately ordered a second one so both grandmothers could have one. What I like about it:- It is hardcover over a spiral binding (best of both worlds, to me!)- It has an elastic strap on the outside to hold it shut (just a nice touch)- It is divided into a handful of "chapter" sections based on stages of life (childhood, school years, etc.)- It has just a couple pages for basic genealogy, which is nice to have for the record but not what I wanted the book to focus on- There are several questions on each page with a good amount of lines to fill in each answer- I liked the questions. There were a lot of them. They were a good balance of specific-answers and open-ended. They asked about facts but also got personal. They covered most all of the important and interesting areas of life, asking about preferences and experiences and also personal responses (e.g. asking about length of marriage but also to reflect on what made the marriage last that long).- I felt that a completed or even partially completed copy of this book would give me a very thorough insight and memorial into my grandmothers without being too shallow nor probing too deep for a written record. I would give more examples of questions and what made me like this book, but I was so excited about it that I gave it to them right away and both of them live far away. But

even though this was the only one I ordered and only one of a few that I actually flipped through, I have no regrets and am absolutely satisfied with it.*One of my grandmothers can no longer write but the questions serve well as verbal prompts that others could then write down.

An absolutely beautiful way to introduce your grandchild to your own special history as a person and a grandparent! I especially like the nice variety of "guided questions and prompts" since I don't do very well with extemporaneous writing. After all, a lifetime is a long period of time to try to condense into a memory book! The questions are easily adjustable to fit your own particular family history and circumstances, and there are a couple of pages at the end of each section to include extra comments and photos or notes. The book is approximately 9 x 7 inches, and is hard-cover with a spiral binding. I use different colored ink in each section just to keep my granddaughter's attention as she reads! (Besides, it's fun for me to write that way!) I make an extra effort to only write in the book when I'm in a good mood - I think your mood can show up in your writing and really influence how you say something without your even thinking about it. When I first got this memory book, I thought I'd rush right through and be done by her BD - uh, no! Never having filled out one before, I didn't realize the time, concentration and thought it would take just to do a small section. (So, *maybe* by Christmas, lol.) I think and hope this is something she'll treasure not only now (while she can still ask questions about anything) but also when she's telling her own grandchildren about her life and family history! If you have grandchildren, I really urge you to purchase a memory book for each of your grandchildren so you can gift them with something only you can provide! And be sure to check out this particular memory book - I think you'll find it to be one of the very best on the market today.
