Customer Reviews

Traveling is one of my hobbies and I always make it a point to do my research before requesting a leave from work and booking the necessary flight and other arrangements. Romania: Complete tourist's guide is way better than the other books I have read so far. It got historical information, covered the important sites, occasions and best hotel reservations possible via booking.com. It tells about the reason why one should visit a place or attend an event that makes it more appealing to

readers. The author did a great job with the descriptions and made me feel that this is a great place to visit and look forward to an adventurous vacation!

The Part 2 of this tourist guide respects the lines of Part 1. I am very satisfied with this complete guide for Romania. I now have both Part 1 and Part 2. I like the author way of splitting the country's guide into multiple chapters, each corresponding to every county. So, the price for a complete guide for Romania is quite small if you buy Kindle edition of books.

This is the part two, so I've pretty much read both. Just wanted to make an honest review, being really well done and good investment. If you are a traveler or even Romanian I will totally recommend this book!

This is simply the best traveling guide of Romania. Combine it with the Part 1 and you will have a complete tourist guide at an incredibly low price. The author did a great job. I'm looking forward to new books written by Daniel B. Smith.
