Customer Reviews

This is a really good study book, it flows really well, it's easy to learn; I'm a grown adult and I have really liked how simple this books allows you to learn. I really helps you with writing in Spanish and with practice it gives you a lot of phrases to begin speaking the language.

I am 36 years old and decided to teach myself Spanish. I got this book so I could start at the beginning and I am glad I did. Yes it is an elementary level workbook but that is where I needed to

start. I did get several different workbooks like this and it did get a little boring going over the same things but it was also really good review and I am glad that I got these.

Great workbook! I homeschool my children and use this for both my 4th grader and 7th grader.

Nice teaching aide, to help teach yourself Spanish. It's good, because if you're just learning Spanish, then you're a "babe" (academically speaking), so why not start off where you're actually at?

This 128 page book has been perfect for my daughter to learn the basics of Spanish before she starts high school!! Would highly recommend!

Not enough English to Spanish. There is far more Spanish than English. Personal instructor/teacher needed for this text book.

I teach elementary & middle school Spanish. This book is geared toward grades 3-6, not 6-8. My 7th graders would find the work too simple.

Excellent, excellent purchase. We're using this as an review between Spanish 1 & 2.
