Customer Reviews

Informative. Well written!

This book is a guideline. It's not a "teach yourself guitar" book. It deals with guitar method and techniques. Which is exactly what you need to learn, it's the building blocks of guitar. This book is the perfect companion for any lesson book or easy guitar song book, I highly recommend it to anyone jumping into guitar. Excellent format, excellent book quality, & excellent audio.

more for advanced players

He really goes in depth into theory if that's what your looking for. I also bought Justin's. Guitar course which is very practical and easy to learn.

Great learning tool. It is nice having all three books in one notebook style binder version that is easy

to flip pages on your music stand. Fun to play along with the included CD's Lots of fun songs.
Master all these and you will be on your way to guitar greatness

I learned from this book back in high school. Now I bought it for a 12 year old. It's probably a little boring to her but she's too old for the ones with cartoons. She likes the songs. If you can't learn for this book then you aren't trying. Practice at least an hour a day. This is the definitive guitar book for those looking to self teach.

Excellent!

Teaching my 9 year old grand daughter to play. This is an excellent start!
