## Customer Reviews

This book goes beyond the theory and shows you how to trade. The approach here is simple and practical. This book is easy to read and covers the essential elements of a sound trading plan. What

I like in this book is, it stresses how important self-awareness and risk management is. It explains that there are critical lessons for day traders that we need to learn. Generally, it covers on the thought process of a successful trader and on trading strategies.

Really Day Trading is a great guide. Because, this book gives a basic idea of trading. Day trading is a great opportunity to make quick, safe money by trading stocks within a day's exchange. Good explanation of the entire program of Day Trading. Actually the book gives a very good grounding for those who are unsure of how investing in the stock market really works. For those folks, this is a great beginner's guide if you are wanting to day trade options. I am just now venturing into options trading, and have been looking for a quick read that could familiarize myself with the market and concepts. Very informing book!

Today, there is increasingly becoming a part of interest of people not specialized in the area, to perceive and learn how to make trading, investing and earn dinheiro. Mas for someone without studies and expertise in the area, can be a very difficult challenge because the numerous factors and without a step-by-step guide or someone to teach and make your mentor, it may be impossible to successfully trading. This guide features everything that any beginner should do and learn, so you have as successful as possible. Very practical and effective!

VERY INFORMATIVE! A great tips and very informative regarding day trading especially for beginners like us. The material in this book is concise and to the point. This book is perfect to guide me from the beginning and because it offers graphics, illustrations and diagrams becomes very easy learning. WONDERFUL BOOK!

Stock markets are always the best option for investment. Day trading is a good option to invest and earn money. We can say intraday trading is a situation where you invest money and pull it out all in the same day. With this book I understood how to go about trading on a daily basis and teach where to put in efforts to make the right investment choices. I recommend this to those who is just in stock market. It is very informative and helpful. Thanks to the author.

Awesome and informing book! Day trading doesn't really have a reputation for being a safe way to make money. But this book describes ways to trade both conservatively and/or how to take bigger risks with your investment. Overall the tips provided here seem sound and I appreciated that

a lot of the investing vocabulary was deciphered too. As a beginner I found this a good place to start learning about options. Really worth recommending!

A straight-to-the-point crash course of day trading, with all essential information to be aware of and extend one's knowledge with. There's also a lot of motivational info, such as how to deal with bad trades. I especially enjoyed the success stories which gave me an additional motivational boost to keep grinding in my trading career. In a nutshell, crucial information for any serious day trader.

Trading for me is a way of experience before but not now thankfully. I learned so much of this book as a beginner on Day Trading. The tips and guide are simple and very easy to follow and understand. I can see myself doing this kind of business soon. Sharing the great news to my brother and sister as my partner in business.
