Well its a textbook....if required, you have no choice but to get it. However, I have since added a law major as a direct result of the class this book was required for, so 5 stars.

Received it in a timely manner. Great book. Very informative. The perfect nexus of philosophy and law.

Used this book for a law course and decided to keep it and not sell it back. It gives great insight on how our judicial system works. The pros and the cons. Anyone who is thinking about pursuing a law career should read this book.

Book was in pretty great condition and served its purpose!

Save me money by not having to buy the new version. Well written!!! Easy to read making it easy to understand.

Excellent

This book changed my life. Before I read this book my life had no meaning- but now the world is beautiful again. This book cured my wife's cancer and payed off my mortgage. Thank you Walter Murphy for my new lease on life.

Not good. The book was in very poor condition.
