Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

The map has very clearly visible blemishes, including tears, warping, and even a drops of what

appear to be either tomato sauce or blood. It was very clearly a previously used product. I bought this as a gift for my parents, but it is not in any shape to be given to them. One star for very poor used-product screening. Definitely would not buy again.

This was ordered for a friend's birthday. He has a brother in Australia and wanted to be able to locate the places that his brother talked about. It is a wonderful, very detailed and interesting map.

We are travelling around Australia and needed a map to show our grandson where we are when we speak to him on Skype. We are also sending a postcard from the main places we visit. This map is just the right size.

Perfect for monitoring, pinning, the progress of my daughter while she's there.
