Customer Reviews

This book is amazing!! For someone who has never planned a wedding before, it was a huge help. There are so many issues that could arise while planning a wedding, and this gave advice on how to handle almost anything perfectly!! I would definitely recommend this book!

This little book is a great help when planning your wedding- it has everything in it !!

A plethora of good tips! This book offers suggestions and answers to the many nagging yet necessary questions that need to be answered before the 'Big Day'. For example, at my last marriage (my second), I ripped my wedding dress waist high and if it hadn't been for this book, my maid of honor wouldn't have saved the day with the needle and thread she so cleverly hid in her bouquet. Anyway, this book is great!

Many brides consult me, about their wedding, I always recommend this book for them to read before their wedding. It gives all the answers to the expected and unexpected difficult situations before and during this critical period.

It's a great little book with all the info you need. I noticed the last review was in 1998 - I have the revised edition published in 2000. Well worth the investment.

This book has been a great help to me. I'd recommend it to anyone having anything to do with a wedding.

The seller sent my items quickly and they were just as described. No problems at all.
