We have 7 kids. Two play piano, and these books are awesome!

I bought this online since it's getting harder to find the all-in-one series in stores. The all-in-one course gives the teacher a chance to have their students get one book instead of all 4 of them by Alfred's. You can supplement with other books or other items, but this book helps the beginning student learn very well.

My son has been using this series and he is learning how to play the piano! Most importantly, he is enjoying the learning. I love how it slowly introduces and teaches music theory in a easy fun way.

My daughter is really progressing with her studies in piano all because of the books

It is a good book for the beginners.

I follow this book for teaching all my students and they all excel past expectations. I highly recommend it

My daughter really have fun learn with this book

Love this series! My student has enjoyed learning piano very quickly and has advanced from Book 1 to Book 2 in just a few months. This book is fun while teaching the basics. Makes learning piano exciting. Love the All-in-One Course idea!
