Customer Reviews

"This is a great coloring book with a nice introduction by the author. It is filled with beautiful pictures that are fun and relaxing to color. Very well done."- Anni Kelley-Day (.com) "I have really enjoyed coloring the patterns in this book! It promotes calmness and relaxation. It is a perfect after a long day of work or just hanging out and watching tv. I would highly recommend this book for people who have a hard time unwinding and sitting still. Its a great balance of doing something while being at the same time!"- Lisa Macedo (.com) --This text refers to an alternate Paperback edition.

Let me start out by saying that this is a fantastic idea for adults with stress or anxiety. It is so mediating to be able to absent-mindedly work on one of these patterns and see it come to life with

such amazing color. My one critique is that while flipping through the many pages (it is quite thick!) I happened upon the title and author's introduction of MEIN KAMPF?? I am not kidding. Hitler's autobiography was right in middle of my brand new coloring book! I have no idea why and am very confused and surprised by this supposed printing error. As no other reviews have come out mentioning this strange phenomenon I have to assume that this does not occur in every copy. However, that being said this is a wonderful book with beautiful patterns that you can make your own creation. Would give 5 stars if not for the sudden nazi-propaganda midway through. Attached is a picture of the ripped out and crumpled page after I threw it in the garbage bin because it felt weird to have it in such a soothing book.

Great buy! 60 pages of whimsical drawings that you can't go wrong with coloring! Super fun and relaxing! I had so much fun coloring these 4 pictures--looking forward to coloring the rest! Best coloring book so far! P.S. I had also purchased the Wonderland coloring book by Bella Stitt and this one is even a better bargain since you get double the amount of pages (60 instead of 30) for just 2 dollars more.

I received it as a gift and have to say that I have gotten dozens of hours of inexpensive, pure pleasure from it. I use markers and the bleedthrough is horrible, but I always break the book bindings and use a clipboard to work on one page at a time, so I couldn't care less.

fun for all ages. Men and women! Very relaxing

cool way to spend a long weekend - everyone is getting an adult coloring book for Christmas
