Customer Reviews

This book is a must for all women. I love her voice and presence. There is much wisdom behind her words. There are dozens of exercises with various purposes. There is no extra fluff written to take up pages like we often see in self-help books. She does not stop at the woman. She also teaches ways for us to honor and heal the man. She gives insight into how men think... like how they do not seek healing themselves very often. I have been studying women's health, sacred sexuality, Tantra, and Taoist practices for many years. I have not found another book that leaves me feeling fulfilled. I work as a Tantra teacher, and I highly recommend this to those with an interest in Tantra.

IF you are a lightworker or a woman of spiritual mind - READ THIS BOOK This is the only book I have found that details the spiritual/sexual/light-based reality of being a female in this reality. Take HEED, and READ. Doing the practices works! Though I have found it challenging to adhere and stay on path with it, falling back into old patterns regarding sex and sexuality - Keep Going! Purification and Bliss are possible. Honor and Understand your womb and sexuality. Move Forward - you are not alone! Love and Light, Chimera Smoke

Denika has brought forward this very important survival work for all women with or without a working or producing womb. The information alone can take someone out of the depths of depression and possession. The straight, no chaser techniques are designed to help you clear your womb of everything and everyone who should not be there. People in general don't understand that possession of your body (and body parts) by low astral entities and malevolent inter-dimensional entities is a real issue; especially now with so much clearing happening on the planet right now. She brings the goods for real. Don't take this work lightly. Denika takes you deep into the causes and processes of this type of energy work with compassion and wisdom that only comes from a healer who has gone through and come out on the other side of major healing initiations of her own. Clearing your womb and energy fields are your responsibility and now you have from what I know the only reliable resource for this specific type of healing; bar none. Denika is a very dedicated healer who has done the inner work and scholarly work herself. This is one of her gems and I'm glad she has birthed it. Kamalaliaya Anuhazi, (aka "Celestial Dakini")

Kels book is a must read for women who need guidance on our womb for physical and spiritual healing. I read the book a few years ago and used many of the techniques. I did see results!!!! highly recommend the book!!!
