In the same inimitable, uncensored, and hilarious style that has made him one of the most popular voices on satellite radio, Jason Ellis unleashes his no-holds-barred words of advice on diet and exercise, cultivating your signature look, partying, getting laid, maintaining a relationship—and more! Maybe—like Jason Ellis—you want to have sex with multiple partners and then talk about it on the radio while wearing cheetah pants . . . Or maybe you have some goals of your own. Whatever the case may be, Jason believes it's all about getting off your ass and maximizing the opportunities that life has to offer. It's about remembering that

you are alive, right now, and that won't always be the case. So do something. Anything. Enjoy the ride. Go outside and get naked. Jason can tell you how to handle every situation life throws at you and play it like a champ: how to look, how to act, how to pick up a stripper—•you name it. But that's just for starters. Jason believes that to get what you really want out of life, you have to have confidence. And true confidence is something you have to earn, by deciding what you want from life and then pursuing your passion until you make your dreams a reality. This book will show you how to develop the positive attitude that will allow you to truly make things happen.

Jason Ellis is a pro skater, host of SiriusXM's The Jason Ellis Show, and New York Times bestselling author of I'm Awesome: One Man's Triumphant Quest to Become the Sweetest Dude Ever. He lives in Los Angeles, where he continues to kick ass on a daily basis.

His first book was a funny different kind of read since it was a bio type book. I got this just to change the pace of my reading and maybe get some chuckles. Some funny stuff but also some tired same old stuff over again. But that's the book a one sided guide which you have to read lightly since no ones opinion is gold. Don't expect much and you will get some chuckles. His other book was much better as it was a bio and not a guide.

It's Okay. I don't think this book is written for me. I read Jason's first book and really enjoyed it, but this book left me feeling like he is a person who I don't want to be like. I can see how some people would really appreciate this book, but for me I give it a solid Meh.

His first book was good. it described his struggles, road to success, fall, and then redemption. this book is crap. it is about how to pick up hookers, telling women to get boob jobs and nose jobs, and when doing a threesome, don't play favorites with one of the women. Any moronic 12 year old could have written it. I really want my time and my money back.

Good book. I got this book read it started following the advice. I started feeling self confident again and started dating. I found the love of my life and got married and I would like to think it was because I read this book and it inspired me to get off my ass and achieve something.

If all you want is entertainment this book will make you laugh so hard tears will come out. If you want more out of life than what you are currently getting this book will motivate you to get started.

Ellismate gives great life advice. This guy had seen and done more things than a most people do collectively in their lives, and shares his wisdom. Good read.

Kind of loses me after a few chapters of "you should do this, because I do it and it's awesome - and so am I." First book was amazing and really connecting.. This was kind of a let down.

From what I've read so far, this guy has a massive ego (he'll say his dick is bigger than it) and can achieve anything. I pretty much had the idea this is what the book would be like, so I'm just reading it for some laughs and entertainment. Don't try this stuff at home, kids!
