# The Best Banjo Book: 25 Songs That Will Teach You The Banjo Basics

## Synopsis

\*Learn to play melodies and chords\* A fun and engaging method for beginners\* 25 songs that will teach you the basics of clawhammer banjo\* Each song has an audio and video recording that helps you learn to play\* Good for absolute beginners and kids\* Log on to [kellysmusicbooks.com](http://kellysmusicbooks.com) for more information

Author Kelly Weeks is a firm believer that learning to play music should involve playing along with music recordings. Playing with a beat is a student's best method of practice. It teaches the student how to play steady time as well as prepares them for playing with other musicians. Kelly plays both the clawhammer and the three finger style but he has found much greater success teaching the clawhammer style. This is not a comprehensive method for learning the banjo. It is a method to help you learn to play the basic banjo techniques with musical recordings

## Customer Reviews

As a Kindle author myself, I admire the design and layout of "The Best Banjo Book." Kelly Weeks has cleverly interlaced links to video and audio examples of the 25 exercises (he calls them songs) that can help a new clawhammer banjo student learn the basic right-hand and left-hand techniques. In fact, Kelly has shown me some features here that I did not think possible. The book's shortcomings lie in the title and the expectations it may create. At least one reviewer seemed to be looking for a Scruggs-style (three-finger) instruction book, and that is not the style that Kelly is teaching here. Also, the "25 songs" are really basic exercises that the student can play along with a video or an audio track. Someone looking to add new tunes to her repertoire will be disappointed in these selections. However, as exercises, these "songs" can help a new student build basic skills step by step.

Needed something to get me started. This was a good start. Easy reading and clear instructions. Thank you very much. Ernie

if you buy the Kindle version the pictures don't expand and are too small to read where you fingers pick.

Clawhammer only

Seems like a good beginner book. It's for a claw hammer style. I bought this for my bf. he likes it and it is a good learning tool.

very good book

Works great

This book would not even be included in The Best 10,000 Banjo Books. Don't believe me? Just buy it and be prepared to be disappointed - make that VERY disappointed.
