My oldest daughter convinced me, when she was four, that kids can ask serious theological questions! So, I started writing children's books to help teach her and our other children. And, you know what? It is a great thing that Jesus often gives the exact same answers--and comforts--to her and to the rest of us! Thanks be to God!

Thanks, Deaconess Mary Moerbe! This book is loved by our family and has also been so well received by many others who have received copies from us as gifts. This book helps children see that what they have been given by God (talents, resources, etc.) is not only for them but also for others. What joy there is in this!

How wonderful to have a book to share about how God works through adults to help children AND through children to help others! The illustrations in this book draw children to each and every page. We will be reading this again and again!

This beautifully illustrated book clearly shows Christian children that they already have a vocation or calling from God and it's purpose is the same as every vocation they will ever have, to love and serve our neighbors. I can't wait to read it with my three year old grandson this Christmas.

nice book

Wonderful book.

Good book for preschool age kids.

Great way to introduce the idea of vocation to children. Luther's explanation of vocation found in his explanation of the commandment, "Thou shalt honor thy father and thy mother," in Luther's Large Catechism says in essence that a child who simply obeys mom and dad does a greater work than any monk in a monastery. Awesome job & right in time for "H" week too ;)!

Fiction Tags: Inspirational First off let me say these illustrations are fantastic and portray the story so

well. My neice and nephew loved them. This story is geared to the young but has an underlying truth for us all. We are all God's children and as such we need to remind ourselves daily that we are His vessels that He works through for the good of all. We each have a purpose and can help in little and big ways. Nor are we ever too old to learn what God has planned for us. Children will adore this book. It is written in a way the new reader can understand and those still learning will enjoy practicing on this easy to understand words. Be prepared to answer the questions that spring up when you finish as to how your young readers can follow God's plan for them. This is a wonderful gift for your young readers.
