Customer Reviews

Herobrine Comics is now known as Zack Zombie Comics! Herobrine Comics love everything Minecraft! They are dedicated to bringing fans of Minecraft high quality books and comics so they can continue the adventure in and outside of the greatest game in the world...Go Minecraft!

The amazing artwork in this fun read was impressive. My grandson loves Minecraft and I've been learning more and more about it. When I saw this book I downloaded it so my grandson could read it. I found myself looking through it and was more than pleased with the purchase. This is an excellent way to reach kids (via a fun game) and motivate them to read. Highly recommend.

I love MineCraft. I got this book and it was good. But why isn't everything blocks? And Herobrine doesn't really look like that except for the white eyes. Other than that, great book. If you love MineCraft and don't mind the two things I just said, I think you should get this if you haven't.

This is a VERY short story. It literally took only a few minutes for my 8-year old to read. \$8 for a few minutes?!

So, upon receiving this comic book my 7 yr old and I open it up all excited to read a Minecraft comic book...only to see that the illustrations aren't even close to looking like Minecraft. Also, some of the text is blurry, like the printing was done poorly.

I got this book for my boyfriends little brother for Christmas because he loves Minecraft and loves comic books. I was quickly disappointed when I saw how small it was. It's literally only a few pages long and my boyfriends 9 year old brother read it in less than an hour. The storyline was good, but it's so small it seems more like a sample book.

While the cover is drawn in the Minecraft style none of the pages are. This defeats the whole point -- its just another comic -- not what a Minecraft-fan child would want. I am returning it.

Not much to it. I bought it for my Minecraft-nut daughter. It's just ok. She only looked at it for a few minutes and was bored with it.

Purchased this for my children who both are Minecraft obsessed, ages 6 and 9. The book itself is brightly colored, the storyline easy to follow with nice large panels and clear text. It is a charming backstory for "Steve" in Minecraft. It is however a very thin graphic novel, by comparison with some more traditional graphic novels and it would perhaps more precise to state it is a comic book with a sturdier cover. It is definitely appropriate for school age children.
