Synopsis

This volume contains the FOUR most important esoteric books by Austrian philosopher, author, social reformer, architect, and esotericist Rudolf Steiner. Although he gained initial recognition at the end of the nineteenth century as a literary critic and published philosophical works including The Philosophy of Freedom, it was at the beginning of last century, that he founded an esoteric spiritual movement, anthroposophy, with roots in German idealist philosophy and theosophy; other influences include Goethean science and Rosicrucianism, and published his important and influential works that we now present in this volume: An Outline Of Occult Science, Christianity As A Mystical Fact, The Way Of Initiation, Initiation And Its Results.
