Suzanne Ruthven : Author and editor of *Writer's Wheel* magazine You'd be wrong to think that *Passionate Plots* was another book on how to write on romantic themes " Kelly Lawrence reveals how to make your writing smoulder on the page. And we're not talking just about writing erotic fiction because erotic scenes appear in other genres too - westerns, thriller, adventure etc. and *Passionate Plots* could help give authors in those genres that extra bit of spice in their writing. I like Kelly's writing style and she has the right approach in keeping everything down to earth and writer-friendly with plenty of practical writing exercises. It's not easy to write 'sex scenes' and this title will help those writers who aren't very good

at it! Recommended.

This book is so helpful in such a short time, it is very informative and well balanced. It gives you an insight into so many aspects for writing and all in an understandable language. A much needed addition for anyone looking to write erotic stories. Well worth the money.
