Love how Lanie handles to always empower us women with universal tools we all take for granted. It is easy to become discouraged with a heartbreak, but as she says, if the man is worth he is worth the try. I have personally tried the secret technique and have seen it worked for me. The question we woman should ask ourselves next is if the man in our lives is truly worth of our inner power efforts. Great read Lanie!

I give BREAKUP to MAKEUP as well as the other books five stars because they are positive and great guides to bettering yourself and knowing your worth. I am using all the methods and I have been working so far...

This book delivers a practical account and perspective on breaking up. Each chapter is filled starts with a different quote that sets the tone and encompasses the chapter. The author's firsthand accounts provides deeper insight into the situation. It is very clearly explained, to the point and practical. I really liked the fact, that the author kept the emphasis on empowering the person (woman) suffering from the breakup but not in a victimizing way, more as a means to empower. A nice bonus is the extra resources provided via the MP3 meditations, well dine Ms. Lanie.

I've just finished reading this book, and it contains a lot of sensible advice about how to treat yourself well first and foremost and how to behave from a point of your own power when an 'ex' comes back into your life so the mistakes of the past aren't repeated. It's good advice in general wherever you want an 'ex' back or not. I have previously contacted Lanie about something else, and I can verify that she emailed me back the same day within a very short time.

I am a fan of Lanie's, and in this book she does not disappoint! She lays out very clearly the steps needed to work through to decide *if* you really should try getting your ex back. Then she reminds you constantly that you are an empowered woman, worthy of the best relationship you can visualize. She helps you to assess the relationship - and your ex - and gives concise, no-nonsense

advice about how to go about winning them back. Recommended!

Lanie Stevens has done it again!! As always she is straight and to the point and offering the advice that we all need to hear. This book is a very quick read and can be completed within an hour. The book talks about no contact, how to respond when he finally comes back and most importantly loving yourself first. You might even discover that he's not worth it at all.

I have read all of Lanie's books and just bought the one on manifesting love that came out yesterday. I haven't read that one yet. It works it really really does. I tried it many times. For whatever reason, I've lost my "power and concentration after a recent heartbreak that I ALLOWED to happen with my thoughts. And I guess I've let it get the best of me but, her books are so real she really answers your emails and really cares. Her meditations area also the best!

wonderful book in Lanie's series. It's more than just about getting back your connection with someone, it's a very empowering book about the law of attraction and self-love. Lanie has so much wisdom to share and her book is inspirational and wise. One thing I would say though is that it would probably make sense to read these books chronologically.
