A large, very detailed map which shows enough of the bordering countries to provide orientation, but not so much as to shrink the area available for the Baltic states. (They could have pointed out the the map also includes all of Kaliningrad.) This becomes a wall-size map when unfolded, which is good for showing detail, but inconveniently large for walking around.

Appears to be an up to date map of Lithuania, Latvia, and Estonia, with good city maps.

Brilliant mapWe're putting it to use even before we travel

No problems, nice map.
