Traditions & Encounters Volume 1 From The Beginning To 1500 (History)

Synopsis

Traditions & Encounters offers an inclusive vision of the global past—one that is meaningful and appropriate for the interdependent world of contemporary times. Given the diversity of human societies, gathering and organizing the sheer mass of information in a meaningful way is a daunting challenge for any world history survey course. The seven-part chronological organization enables students to understand the development of the world through time, while also exploring broader, big-picture thematic issues in world history. Through new and revised chapter-level and part-level features, the hallmark twin themes of traditions and encounters emerge in greater clarity than ever before in this sixth edition. As a result, students have resources that enable them to move beyond the facts of history and examine the past critically, analyze causes and effects, and recognize similarities and differences across world regions and time periods. By digging deeper into the implications of world history's stories—not just the who, the what, and the where, but also the why and the how—students can make sense of the human past. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

Book Information

Series: History

Paperback: 544 pages

Publisher: McGraw-Hill Education; 6 edition (October 8, 2014)

Language: English

ISBN-10: 0077504909

ISBN-13: 978-0077504908

Product Dimensions: 9 x 0.8 x 10.9 inches

Herbert F. Ziegler is an associate professor of history at the University of Hawai'i. He has taught world history since 1980 and currently serves as director of the world history program at the

University of Hawai'i. He also serves as book review editor of the Journal of World History. His interest in twentieth-century European social and political history led to the publication of *Nazi Germany's New Aristocracy* (1990). He is at present working on a study that explores from a global point of view the demographic trends of the past ten thousand years, along with their concomitant technological, economic, and social developments. His other current research project focuses on the application of complexity theory to a comparative study of societies and their internal dynamics. Jerry H. Bentley was professor of history at the University of Hawai'i and editor of the Journal of World History. His research on the religious, moral, and political writings of Renaissance humanists led to the publication of *Humanists and Holy Writ: New Testament Scholarship in the Renaissance* (Princeton, 1983) and *Politics and Culture in Renaissance Naples* (Princeton, 1987). More recently, his research was concentrated on global history and particularly on processes of cross-cultural interaction. His book *Old World Encounters: Cross-Cultural Contacts and Exchanges in Pre-Modern Times* (New York, 1993) examines processes of cultural exchange and religious conversion before the modern era, and his pamphlet *Shapes of World History in Twentieth-Century Scholarship* (Washington, D.C., 1996) discusses the historiography of world history. His most recent publication is *The Oxford Handbook of World History* (Oxford, 2011), and he served as a member of the editorial team preparing the forthcoming *Cambridge History of the World*. Jerry Bentley passed away in July 2012.

Let's simplify this into a pro/con format
Pros:-Well assembled, full paged material with insightful photographs-Matte texture to minimize light reflection-Lay-flat design-Decently priced and available for rent
Cons:-The writing is absolutely bland and vanilla. Sure, we know that we all emigrated from the mid-eastern region over the course of 60k years. This book does nothing different to illustrate this point nor to provide any meaning to it. The maps are the same maps I've seen in my other classes and even resembles of some material found in high-school texts.-This book needs footnotes for the amount of claims it makes. 'The people of Austrailia used a rudimentry canoe system to navigate from what is now Ginuea to the main continent'-The authors found it appropriate to provide shifty arguments as to why religion isn't valid. Sure, that's your viewpoint, but nowhere else in the text is this kind of counterpoint style exerted.

I never did get used to the way this book was put together. It seemed rather Hodge podge. It wasn't in chronological order of the years, I would think that I was understanding a subject and then I

realized I had been moved into a different century. It was frustrating.

I do not believe the narrative is very interesting even for history majors. The authors seem to go over board in maintaining their theme of encounters between civilizations. I used this text because it was an emergency situation where I did not have time to review more than one alternative in filling in for a colleague.

Arrived in poor condition.

I just wanted to get the required textbook for my kid in a hurry. It came in a hurry, alright - practically the next day - so I was very happy about that. I love that the seller was very honest about the kind of condition it was in. My kid is going to be hard on it (throws it in a backpack and it gets banged around), so I didn't care about imperfections. Good value.

Had some writing in it. All in all, solid.

Im sure the book is fine but it came in extremely poor condition so I hope I am not charged for this upon returning it.

The Kindle formatting of the book is absolutely terrible. On paper, there are 2 volumes of the book, but on kindle format there are 3. Now, I'm stuck renting volume B for the 2 weeks left in the semester, but they don't allow rentals for fewer than 60 days. This is crap.
