Worst Case Scenario - Bug Out: Book 2: Bug Out

Synopsis

A nuclear bomb has detonated in Atlanta, and an EMP has wiped out the U.S. power grid. The societal fabric of the country is ripping apart, and an invading force is making their presence known. With time and resources running out, the separated Burrows family is desperate to find each other. Bug Out, Book 2 in the Worst Case Scenario series, follows Ian, Leah and Grace Burrows as they try to individually cope with the new world reality controlled by an invading force and the physical challenge of simple survival. Can they find a way back to each other? And if they do, should they stay, or should they Bug Out? Are you prepared?

Customer Reviews

Loved it, a lot more action as it goes along. Love the way all the characters are coming together, almost too easy tho. Can't wait to read the next one. Keepum coming!!

Just the right amount of action mixed with plausible events to get you interested and keep you reading. I wish the books were longer. It seems like each one is only a few chapters and ends. I

would enjoy it more if it was one long book. I will read the next one in the series.

I bought this book thinking it was a part two of the author's other series which I loved but it apparently isn't out yet. My mistake led me to this series which is awesome. I enjoyed this book but will buy the first one to get more of the back story before I move on to book 3.

A fast-paced story that goes into more of the emotional part of the story, but is very short. The book also focuses more on how a state-supported attack will look like, and how the defending government would react to the attack. Although, the book is more focused more on the action shooting up stuff than the survival facts sort of part I hoped to see in this series.

Pages turn themselves.

Great attempted plot however lacks substance.

Liked this little series a lot. Really, really short. But, really, really good story writing.

Good series so far.....just wish it was all one book. This could really happen. We all should be prepared for something like this. If it never happens, I can take a vacation camping and still be well supplied.
