Customer Reviews

Mediterranean Diet for Diabetes is a good book for those suffering from diabetes. I bought this book because in our family, we have a history of diabetic cases. After reading the entire book keenly for four days now, I can bet the information in this book is awesome. The diet recipes in this book not only seem to lower book sugar, but also they look tasty and delicious. I can't comment on weight loss benefits of this diet, because everybody in our family is thin, and we would like to add some few pounds

This book has helped me a lot! The author has done a great job explaining what the Mediterranean diet is and what you should be eating. I really liked the recipes at the end of the book, they are all very healthy and sound delicious. This is a great book and I highly recommend it!

The Mediterranean Diet gives you a simple understanding of what it means and discuss topics related to diabetes such as simple, complex carbohydrates, and glucose. It references various research and provides some food guidelines like olive oil and nuts. A variety of healthy Mediterranean recipes for Breakfast, Lunch and Dinner are provided including Quinoa with Chia Seeds, Artichoke Salad, and Moroccan Chicken Burgers.

I am so glad I bought this book! I love every thing Mediterranean, especially the food. This book provides great recipes from around the rim of the Mediterranean that are not only delicious, but are also healthy.

This looks like a great recipe book. It gives a good description about what the Mediterranean Diet is and what it can offer you. Explain good and bad fats, and carbohydrates. And lists many recipes that look very delicious and fabulous. Can't wait to try them.

Informative & easy to start using in your everyday life. Found spelling & grammatical errors distracting. Prefer my recipes to include serving size & nutrition values.

Great resource for people trying to lose weight and stay in shape. Healthy and tasty recipes. I'd recommend this book!

The book was simple minded and not even put together right. So many sentences did not even make sense. Recipes were not correct. Book sucked.
