Customer Reviews

I read The Keeper's Secret as an introduction to the Mind Bending Series, although I am fully aware that this is a sequel. This short story definitely piqued my interest in the series, as I was introduced to characters and an overlying story that I have not yet explored fully. I'm looking forward to learning more about the characters and how the story develops, so I expect to be reading the rest of the series very soon!

I am currently on book 3 of the Mind Bending Series. The series is packed with excitement right

from the start. The Keeper's Secret is a great addition to the sequel. The new characters intensify the story and the new twists will capture your imagination while you turn page after page. I recommend this book (and series) to everyone who loves a good mystery, a little adventure while throwing in some good old fashion supernatural mojo. The streets of Louisville never seemed more mysterious than in this series. I can't wait to finish the series and then watch the movie being made from book 1, Afterthoughts.
